**APPLICATION OVERVIEW**

In order to assist petitioners through the rezoning process, petitioners are highly encouraged to attend a pre-application conference prior to application submittal. Petitioners are requested to review the sections of the Zoning Ordinance specific to zoning amendments prior to submission, and advised to contact Planning Staff with any questions. The following sections of the Zoning Ordinance pertain specifically to zoning amendments:

- Section 110: Amending the Ordinance
- Section 111: Petitions
- Section 112: Approval Process

Applications for zoning amendments must first be considered by the New Hanover County Planning Board at a public hearing. The Planning Board will make a recommendation to the County Commissioners which will take final action on the permit application in a quasi-judicial public hearing. Attendance at all public hearings is required. The public hearings will allow staff, the applicant, proponents and opponents to testify in regards to the request. Unless otherwise published or announced, Planning Board meetings are held on the first Thursday of each month at 6:00PM in the Commissioner's Assembly Room at the Historic County Courthouse located at Third and Princess Streets, Wilmington, North Carolina. All meeting dates and application deadlines are published on the New Hanover County Planning website.
APPLICATION REQUIREMENTS

In order to assist petitioners through the rezoning process, petitioners are highly encouraged to attend a pre-application conference prior to application submittal. Applications must be reviewed by Planning Staff for completeness prior to being officially accepted. Applications must be submitted to Planning Staff at least twenty (20) working days before the Planning Board meeting at which the application is to be considered. In order to allow time to process, fees and review for completeness, applications will not be accepted after 5:00 PM on the deadline day. Once accepted, the Planning Board will consider the application at the assigned meeting unless the applicant requests a continuance.

For all proposals, in addition to this application, the following supplemental information and materials are required:

CRITERIA REQUIRED FOR APPROVAL OF A CHANGE OF ZONING

Requests for general rezonings do not consider a particular land use but rather all of the uses permitted in the zoning district which is being requested for the subject property. Rezoning requests must be consistent with the New Hanover County Land Use Plan and the Zoning Ordinance, and the applicant has the burden of proving that the request is not consistent with the county's adopted land use plan, zoning ordinance, reasonable, and in the public's interest. The applicant should explain, with reference to attached plans (where applicable), how the proposed zoning district satisfies these requirements. The applicant has the burden of proof and must provide sufficient evidence in order for the required findings to be met.

You must explain in the space below how your request satisfies each of the following requirements (attach additional sheets if necessary):

1. How would the requested change be consistent with the County's Policies for Growth and Development?

See attached document with responses.
2. How would the requested zone change be consistent with the property’s classification on the Land Classification Map?

See attached document with responses.

3. What significant neighborhood changes have occurred to make the original zoning inappropriate, or how is the land involved unsuitable for the uses permitted under the existing zoning?

See attached document with responses.

4. How will this change of zoning serve the public interest?

See attached document with responses.

If an applicant requests delay of consideration from the Planning Board or Board of County Commissioners before notice has been sent to the newspaper, the item will be calendared for the next meeting and no fee will be required. If delay is requested after notice has been sent to the newspaper, the Board will act on the request at the scheduled meeting and are under no obligation to grant the continuance. If the continuance is granted, a fee in accordance with the adopted fee schedule as published on the New Hanover County Planning website will be required.

By my signature below, I understand and accept all of the conditions, limitations and obligations of the zoning district for which I am applying. I understand that the existing official zoning map is presumed to be correct. I understand that I have the burden of proving why this requested change is in the public interest. I certify that this application is complete and that all information presented in this application is accurate to the best of my knowledge, information, and belief.

Rezoning Application Responses

1. How would the requested change be consistent with the County’s Policies for Growth and Development?

   The requested rezoning is consistent with the County’s policies for Growth and Development as outlined in the Implementation Guideline’s Goal III. The County’s vision defined in Goal III encourages higher density residential development to support the nearby Growth Nodes. The subject property is 1.5 miles from the Growth Node located at the Porters Neck/ Kirkland U.S. Hwy 17 interchange. Development near and adjacent to the subject property provides residential, commercial and multi-family that depend on this Growth Node. The applicant recognizes growth in this area is pushing towards the New Hanover/ Pender County line and this rezoning request allows the applicant to provide a project that is consistent with these surrounding developments. For these reasons, this request is consistent with current growth trends near the property and is consistent with the County’s Policies for Growth and Development.

2. How would the requested zone change be consistent with the property’s classification on the Land Classification Map?

   The Land Classification Map designates the subject property as Community Mixed Use. The allowable uses within this classification are Office, Retail, Mixed Use, Multi-Family Residential, Single-Family Residential, and Recreational. By rezoning from R-15 to an R-10 district, the property would provide the greatest amount of flexibility for a residential district and will conform to the Land Classification for higher density with a variety of allowable residential uses within the Community Mixed Use area.

   Furthermore, the County’s Comprehensive Plan defines the Community Mixed Use areas as support for Urban Mixed Use areas, specifically those areas adjacent to Growth Nodes. Given the property’s proximity to the Growth Node at Porters Neck as mentioned previously, the rezoning request to R-10 would be in keeping with the intent set forth in the Land Classification Map.

3. What significant neighborhood changes have occurred to make the original zoning inappropriate, or how is the land involved unsuitable for the uses permitted under the existing zoning?

   Historically, this area of New Hanover County has been single family or undeveloped land. In recent years the Porters Neck area has seen a variety of growth, primarily commercial. The surrounding area does not currently provide any moderate density single family options for this section of U.S. Hwy 17. The current zoning district reflects lower density single family
uses historically seen in this area. However, that zoning limits allowable
density and does not provide for the flexibility that is allowed within the
proposed R-10 district. The requested rezoning would allow for the
highest density and most flexibility within the current district regulations.

This property may also serve as an access corridor to the rear and other
adjacent properties and extension of services into those immediately
adjacent lands surrounding this tract that may currently undeveloped but
are still within the Community Mixed Use classification.

4. How will this change of zoning serve the public interest?
This zoning change will promote development consistent with the
County’s plan and goals. With the rezoning request, this property is
positioned to act as a residential, multi-family or office and retail property
which supports the nearby Porters Neck Growth Node. This rezoning
promotes good planning by increasing opportunities for homes and
businesses near a major retail and medical hub of the county. The public’s
interest is served by these good planning practices. A closer proximity
from home or businesses to the commercial and medical node reduces the
distance the public must travel to these goods and services which, in turn,
serves the public interest.
