City of Greenville Affordable Housing Assessment and Strategy Request for Proposals No. 16-3515

I. INTRODUCTION

The City of Greenville seeks Consultant services to facilitate a forum and develop recommendations that will be used to establish new tools and strategies to address the affordable housing needs, to adopt appropriate policies and to evaluate future housing developments and to assist with the implementation of recommended tools and strategies.

Our Community

The City of Greenville is located in the Upstate region of South Carolina, along the I-85 corridor between Charlotte, NC and Atlanta, GA. According to projections, this corridor will continue to be a magnet for growth over the next few decades. Greenville County has the largest population of any county in the state (451,225 people), and the City of Greenville is one of the larger cities in the state, with a population of 62,888. Greenville's location, aptitude for fostering public-private partnerships, and abundance of quality of life amenities make it one of the nation's best places to live, work, play and learn.

Home to corporation headquarters for major companies like Fluor, GE Energy, Hubbell Lighting, BMW Manufacturing and Micheline North America, Greenville is widely recognized as the preeminent business center in the Upstate. Supporting Greenville's pro-business climate is an unprecedented array of community assets. Greenville is the cultural and entertainment center for the region, featuring the Peace Center for the Performing Arts, Greenville County Art Museum, and the Children's Museum of the Upstate. Greenville is also one of the Southeast's favorite tourist destinations, attracting more than 5.2 visitors each year. The City boasts a variety of destination shopping and dining district, including downtown Main Street. More than 450 acres of park land, including the award-winning Falls Park on the Reedy River, also add to the City's distinctive charm.

An outstanding local educational system enhances Greenville's overall quality of life and provides a ready source of skilled workers. The Greenville County School District is the largest public school district in the state and is home to A.J. Whittenberg Elementary School in downtown Greenville featuring a school-wide engineering curriculum. Two major healthcare systems- Bon Secours St. Francis Health System and Greenville Health System are also located in Greenville.

Greenville has also experienced considerable success in neighborhood revitalization and in the development of affordable and workforce housing. The strategies employed by the City of Greenville to engage non-profit and for-profit developers in housing production have helped Greenville address housing within a broad range of income levels and consumer needs.

Greenville is facing unprecedented growth – the greatest growth in decades. This positive growth is creating pressures on our affordable and workforce housing supply. Although production of affordable and workforce housing has been consistent over the last 15 years,

several looming challenges and barriers are making this more difficult. Some of the challenges include:

- a) Steadily decreasing commitment of federal, state and local funding and increase of regulations and requirements;
- b) Rising property values make acquisition of property for affordable and workforce housing development more costly;
- c) Rising cost of building construction and reduction in available builders due to increase in federal requirements;
- d) Substandard infrastructure that may delay or prevent neighborhood improvements;
- e) Wage and salary stagnation have not resulted in upward income adjustments, thus income has not kept pace with rental and housing sale costs;
- f) Approaching deadlines for required period of affordability and sale of subsidized properties;
- g) Conversion of traditional affordable units to market-rate product;
- h) Clustering of development of affordable housing in traditionally low-to-moderate income neighborhoods.
- i) Decreasing HUD-issued Fair Market Rents resulting in the inability of Housing Choice Voucher Program participant's inability to locate affordable unit within the Greenville Housing Authority's 110% payment standard.

II. **SCOPE OF SERVICES**

The City of Greenville has expended considerable resources developing planning documents for revitalizing neighborhoods and supporting affordable housing. The Consultant will review and become familiar with existing planning documents including but not limited to: The Greenville Housing Strategy, the West Side Comprehensive Plan, the Neighborhood Vibrancy Task Force Recommendations, Affordable Housing Strategy, the 2009 Comprehensive Plan and the 2015 Consolidated Plan. Concurrent to this planning effort, the City of Greenville will also be undertaking the Reedy River Redevelopment Area and City Park Planning Project which will include an affordable housing strategy for the area adjacent to the proposed park. We expect the Consultant selected for the Affordable Housing Assessment and Strategy will work collaboratively with the Consultant selected to complete the Reedy River Redevelopment Area and City Park Planning Project to reduce duplication of efforts.

- A. **Affordable Housing Assessment.** The Consultant will, with staff assistance, develop a current inventory of affordable housing and provide the following information:
 1. Access the current inventory of housing for various levels of affordability, i.e., low, moderate, workforce housing and housing dedicated to persons with special needs (homeless, transitional, elderly, etc.) and those with disabilities.
 2. Identify the current inventory of affordable housing in terms of housing type, i.e., owner-occupied, rental, single-family and multi-family.
 3. Identify the number of units currently being produced each year using existing resources.

4. Assess current financial resources and programs in place to develop and maintain affordable housing and their effectiveness at meeting current and future needs. This information shall be compiled and included in the appendix of the final document.
 5. Using current census data (to include job growth/shrinkage forecasts), project the need for affordable and workforce housing at various affordability levels each year over the next ten years.
 6. Identify barriers that may impede the development of affordable housing
- B. Affordable Housing Strategy. Based upon the results of the Affordable Housing Assessment, the Consultant will provide recommendations and strategies to address the City's affordable housing needs and provide the following:
1. Recommendations for addressing the needs identified in the assessment for each income level including persons with special needs and those with disabilities.
 2. Recommendations for addressing the market needs identified for each housing type, i.e., owner-occupied, rental, single-family and multi-family;
 3. Recommendations for additional stakeholder relationships. Identify additional public, private and non-profit organizations with whom the City of Greenville should partner to accomplish strategic recommendations.
 4. Identify innovative and creative financing tools and incentives that will increase production of affordable housing and can be sustained over a period of several years. Work with City staff to prioritize and develop implementation strategies for three to five tools.
 5. Identify affordable housing preservation tools that help to protect long-term affordability and investment of resources. Work with City staff to prioritize and develop implementation strategies for three to five tools.
 6. Identify planning tools that help to preserve the City's Special Emphasis Neighborhoods and encourage development of affordable housing throughout the City. Work with City staff to prioritize and develop implementation strategies for three to five tools.
 7. Propose techniques to encourage mixed-income development in neighborhoods with affordable housing.
 8. Evaluate best practices in other comparably sized cities and recommend strategies that may be replicated in the City of Greenville.
 9. The Strategy should provide an approach that allows policy makers to implement the recommended strategies and tools.
- C. Implementation Plan. Consultant will develop and assist with the implementation of a realistic plan for recommendations that includes performance benchmarks and timelines to measure successful accomplishments of the identified strategies and analysis of costs associated with recommended strategies.

- D. Community Engagement: Solicitation and management of community/public input will be essential to ensure the feasibility and acceptance of the Assessment and Strategy. An effective community engagement plan to include residents, land owners, businesses, neighborhood associations, developers, financial representatives, non-profit organizations, churches, the philanthropic community and elected officials is important. The Consultant should propose the best method to ensure public input including community meetings. A summary of those meetings should be included in the final report.
- E. Timeline for Selection of Consult and Completion of Project: The City of Greenville will ensure that the selected Consultant has access to all files, reports and personnel required to complete the Scope of Services. The following is an approximate project schedule, subject to modification:
